2019 Inclusion Collaborative Conference

Conference Description

The Inclusion Collaborative Conference is an interactive and reflective educational opportunity to understand and learn evidenced based practices for individuals involved in the care and education of children from prenatal to age 24 with and without disabilities to create or enhance equity, diversity, and inclusive practices in their respective programs and communities in which they live.

Desired Outcomes (in-person or virtually):

- Develop relationships across agencies to support inclusive practices
- Understand and learn about research findings, models and evidenced based practices to guide inclusive practices, policies and professional development
- Meet and learn from peers to problem solve and create inclusive programs for children from prenatal to age 24.

Target Audience

General Education **and** Special Education: Administrators, Teachers, Support Staff & Parents.

In-Person vs. Virtual Sessions

In-Person Sessions

There are only 350 in-person slots for on-site participants at the Santa Clara County Office of Education (SCCOE). In-person participants will have access to all keynote sessions and may select one session per time period to attend. In-person participants will also have access to all virtual sessions after the conference.

Virtual Sessions

Since there are only 350 spaces available for in-person participation, the live virtual participation is a great feature of this conference. The conference will have all three keynote sessions and selected concurrent sessions will be live streamed on YouTube over the two Conference days. Virtual sessions will also be recorded and available to all in-person & virtual participants after the conference.

Virtual Participation (Individuals & Virtual Host Sites)

Individuals can tune in live/virtually on their own computers at work sites or at home. Groups also participate at Virtual Host Sites which are typically located at County Offices of Education, Head Start locations, schools, district offices, regional centers, and other agencies. Virtual Host Sites offer the opportunity for more meaningful remote participation in the conference through networking, reflection and discussion about the sessions. Breaks and lunch can be enjoyed at the same times at the on-site conference schedule. Participation by groups may also lead to team planning for implementation of the inclusive concepts presented at the conference.
